STAFF MANAGEMENT

Powerfully Control your clinic...

- -Create user accounts and set permissions for each employee.
- -Internal Communications.
- -Assign tasks to employees and follow up with approval or rejection.
- -Attendance and departure by geographical location.
- -Salaries and advances.
- -Analytics to follow up & compare between employee performance.

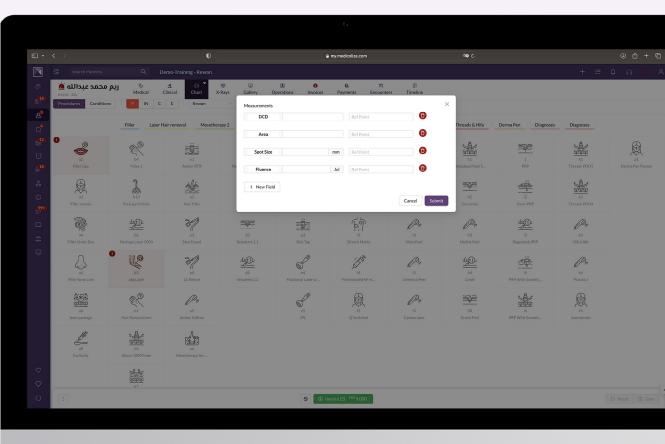

Pulse Tracking Made Easy

-Whether your clinic works with session packages, pulses, or visits, you can easily monitor the number of used pulses for both the patient and the doctor. This provides a straightforward calculation of the doctor's share per procedure.

-Post-Session Tracking: The system displays the number of pulses used by the doctor compared to the device's counter, ensuring accuracy.

-Precision in Laser Therapy: You can also measure the readings of the laser device and the specific part used during the treatment.

-Automated Reminders for Patients: Medicolize sends reminders to patients before their next session, ensuring they stay on track to complete their treatment plans.

ANALYTICS & LOGS

Control powerfully & follow up precisely...

-A comprehensive view of the clinic's performance.

- -Analytics for patients that help you locate the next branch for example, and the target audience for your advertising campaigns, such as age, gender, location, and more.
- -Analytics for appointments & Waiting time.
- -Analytics of operations by amount, status, price, cost and more.

-Analytics of Inventories, refills & Consumptions.

Communication speed and elegance...

-Categorize your patients and run SMS advertising campaigns.

-Dynamic SMS by the patient name and the clinics'.

-Auto SMS to patients and labs.

-Auto SMS after procedures with a time you specify.

-Link SMS to the appointment status, birthdays, or else.

-Auto congratulatory SMS on specified occasions.
